PROFILE

I am a faculty member of the Department of Human and Clinical Anatomy at Sultan Qaboos University. With a strong background in anatomical sciences and anatomy education, I am dedicated to teaching foundational and applied anatomy to medical and health science students. My research interests include anatomy education, radiological anatomy and innovative teaching methodologies. Committed to academic excellence, I actively contribute to curriculum development and interdisciplinary collaboration. Through teaching, research and mentorship, I strive to enhance students' understanding of human structure and its relevance to clinical practice.
