QUALIFICATION SPECIALIZATION:

- **PhD in Virology:**

Cairo University, Egypt 2003

- **Master's in Virology :**

Cairo University, Egypt 1999

HONORS & WARDS:

- **Recognition for establishing the World Society for Virology (WSV)**
  - **National Biotechnology Institute, Malaysia (2025)**
  - **Rīga Stradiņš University, Latvia (2023)**
- **Distinguished Active Researcher**

PROFILE

Prof. Ahmed S. Abdel-Moneim is an internationally recognized virologist known for his contributions to the molecular diagnosis, viral evolution, and virus–host interactions. He has authored over 130 peer-reviewed articles. He is ranked among the top 0.24% of global coronavirologists (Expertscape) and is listed in the top 2% of scientists worldwide (Stanford University ranking). He is the founder of the World Society for Virology (WSV) and serves on the editorial boards of leading journals, including *Virology*, *npj Viruses*, and *PLOS One*. His research has advanced understanding of zoonotic viruses, respiratory viruses (including SARS-CoV-2, influenza viruses, and parvoviruses), and hepatitis C.

WORK EXPERIENCE

- **2025 - Present**
  Professor of Virology,
  Sultan Qaboos University (SQU), Oman
- **2009-2025**
  Professor of Virology,
  Taif University (TU), Saudi Arabia
- **1996- Present**
  Professor of Virology
  Beni-Suef University (BSU), Egypt
  (Progressed through academic ranks from Demonstrator to Full Professor)

RESEARCH INTERESTS

- Molecular evolution and pathogenesis of emerging and re-emerging viruses in humans and animals
- Mechanisms of virus–host interactions and immune evasion
- Zoonotic transmission and epidemiology of influenza viruses
- Clinical impact and molecular determinants of viral infections
